+6283890484220 | rahmatsuhadi32@gmail.com | linkedin.com/in/rahmat-suhadi | https://rahmatsuhadi.github.io

Bantul, Yogyakarta

Versatile Web Developer with hands-on experience in building interactive and high-performance web applications using React.js, JavaScript, and TypeScript on the frontend, as well as Node.js and Python on the backend. Dedicated to delivering responsive, scalable, and efficient solutions while maintaining clean and maintainable code. Able to work independently with high productivity and continuously learning new technologies to enhance application performance. Believes that effective collaboration and strong communication within a team are essential for delivering impactful and reliable software solutions.

Work Experiences

Carakan Sadha Dirgantara - Sleman, Yogyakarta

Sep 2021 - May 2025

FullStack Web Developer

- Developed high-performance RESTful APIs using Node.js, optimizing database schemas and query execution to improve system-wide data communication efficiency by 40%.
- Enhanced end-to-end application performance by implementing Next.js Server-Side Rendering (SSR) and backend caching strategies, resulting in a 25% increase in user satisfaction due to reduced latency and seamless responsiveness.
- Transformed complex Figma designs into pixel-perfect interfaces using Atomic Design principles within React/Next.js, ensuring highly reusable components and clean integration with complex backend business logic.
- Contributed to the full-stack development of 5+ web and mobile-ready applications, including marketplaces and admin panels, by managing both frontend logic and backend API services using Tailwind CSS, Next.js, and Node JS

Media Visitama - Subang, Jawa Barat

Jan 2019 - Apr 2019

Web Developer

- Built a marketplace website for purchasing mobile credit and data packages, successfully launched in under two months.
- Integrated a MySQL database and developed a user data input system, enabling automated and efficient transaction recording.
- Designed and implemented a fully responsive user interface for both mobile and desktop, significantly improving usability across devices.

Daya Gagas Intenasional (Internship) - Jakarta Selatan, Jakarta

Aug 2025 - Dec 2025

Frontend Web Developer

- Integrated multiple external platforms and third-party services into company websites to enhance functionality and improve overall user experience.
- Collaborated effectively with cross-functional teams to streamline workflows and contribute to increased company productivity.
- Translated Figma designs into responsive and visually consistent web interfaces, ensuring accurate implementation according to UI/UX specifications.

Education Level

Universitas AMIKOM Yogyakarta - Sleman, Yogyakarta

Sep 2023 - Feb 2026

D3 Teknik Informatika, 3.91/3.91

- Actively involved in web development and application development through academic assignments and personal projects.
- Pursued university studies while working as a Developer, strengthening time-management skills and applying theoretical knowledge directly in real-world projects.

SMK N 1 Bantul - Bantul, Yogyakarta

Jul 2018 - May 2021

Senior High School, Rekayasa Perangkat Lunak

- Completed a final project involving the development of a web-based information system for a school.
- Graduated with a focus on software development and web development.

Skills, Achievements & Other Experience

- **Hard Skills:** React.js, Next.js, Nuxt.js 4, Express.js, Node.js, Laravel, Python, Flask, PHP, Codeigniter, Tailwind CSS
- **Soft Skills:** Problem Solving, Logical thinking, Adaptability & time management
- **Achievements** 🏆 (2025): React.js for Ecommerce – Udemy
- **Achievements** (2025): Machine Learning (Fresh Graduate Academy)
